

CORTAVANCE®

TOPICAL SPRAY FOR INFLAMMATORY AND PRURITIC DERMATOSES IN DOGS

DESCRIPTION

Cortavance® is a once-a-day medicated spray to treat, manage and prevent itchy skin disorders such as atopic dermatitis in dogs.

ACTIVE INGREDIENTS

Each ml contains 0.584mg of Hydrocortisone aceponate (HCA).

KEY BENEFITS/PROPERTIES

- Measured dose pump, applied once daily for seven days to treat skin inflammation and itchiness.
- Helps to manage a variety of pruritic skin diseases including atopy, FAD and food allergies.
- Prescription medication.
- Once-a-day therapy – greater compliance.
- Seven-day therapy – short course of treatment.
- Spray mechanism continues to function correctly while upside down.
- This product is rapidly absorbed and does not require any massage or rubbing.

CONTRAINDICATIONS

Do not use on cutaneous ulcers. The treatment area should not exceed 1/3 of the surface area of the dog.

INDICATIONS/WHERE TO RECOMMEND

- Managing irritated, inflamed or itchy skin.
- Stop self trauma and break the itch-scratch cycle.
- Management of localised pruritic disorders in dogs.
- Management of chronic pruritic disorders in dogs.
- Augmenting oral or injected anti-pruritic therapy.

MODE OF ACTION

HCA is a diester with activity localised in the skin and negligible systemic absorption. This leads to high anti-inflammatory activity in the epidermis, and an absence of side effects, in the dermis or systemically.

CAUTIONS

Avoid contact with eyes. Rinse hands after use if contact with skin occurs.

DOSAGE / ADMINISTRATION

Topical administration to the skin. Where skin is not exposed, it is advised that the application area be clipped prior to treatment. Before administration, screw the pump on the bottle. The product is then applied by activating the pump spray from a distance of about 10cm above the affected area. The recommended dose is two full pumps of the spray per 10cm² of skin. Repeat the treatment daily for 7 consecutive days. Extended treatment is subject to risk benefit assessment.

STORAGE

Store in a well-ventilated place at or below 25°C, out of direct sunlight. Keep container tightly closed. Discard 12 months after initial use.

PRESENTATION

76ml bottle.

Cortavance® is a Restricted Veterinary Medicine. Available only under Veterinary Authorisation. Registered pursuant to the ACVM Act 1997. ACVM No. A010060.
