SAFETY DATA SHEET

Virbac New Zealand Limited

Intracillin 1000 Milking Cow

Section 1: Identification of the Substance and Supplier

Product name: Intracillin 1000 Milking Cow

Recommended use: For the treatment of Mastitis caused by penicillin-sensitive organisms in dairy cows during lactation. Restricted Veterinary Medicine.

Company details: Virbac New Zealand Limited

Address: 26-30 Maui St, Pukete, Hamilton

Customer service toll free number: 0800 VIRBAC (0800 847 222) (Mon – Fri, 8.30 am – 4.30 pm) nz.virbac.com/

Emergency telephone number: National Poison Center: 0800 POISON (0800 764 766) New Zealand Emergency Service 111

Date of preparation: 04 March 2019

Section 2: Hazards Identification

Hazard classifications: 6.5B, 9.1A

Priority identifier: WARNING KEEP OUT OF REACH OF CHILDREN ECOTOXIC

Secondary identifiers: 6.5B = May cause an allergic skin reaction 9.1A = very toxic to aquatic life

Precautionary information: Keep out of reach of children. Read label before use. Avoid breathing mist/spray Contaminated work clothing should not be allowed out of the workplace
Wear eye and face protection
Avoid release to the environment
Collect spillage

Section 4: First Aid Measures

Eye Contact: Immediately hold eyes open & wash continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart & away from eye & moving the eyelids by occasionally lifting the upper & lower lids. If discomfort persists, seek medical attention. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

Skin Contact: Immediately flush body & clothes with large quantities of water. Quickly remove all contaminated clothing & footwear. Wash affected areas with water (& soap if available) for at least 15 minutes. Obtain medical attention if irritation develops. Wash clothing before re-use.

Inhalation: Remove to fresh air. Lay patient down. Keep warm & rested & observe for any signs of an allergic reaction. If breathing is difficult, obtain medical attention.

Ingestion: Rinse mouth with water. Give plenty of water to drink. Contact a doctor or call the National Poisons Center on 0800 POISON (0800 764 766).

Workplace facilities: No specific workplace facilities required.

Required instructions: Avoid contact with skin and eyes. If skin or eyes irritation occurs wash off immediately.

Notes for medical personnel: If swallowed do NOT induce vomiting. Contact a doctor or call the National Poisons Center on 0800 POISON (0800 764 766)
Section 5: Firefighting Measures

Type of hazard: Non-flammable
Fire hazard properties: N/A
Regulatory requirements: Do not handle until all safety precautions have been read and understood.
Extinguishing media and methods: Water spray or fog / foam / dry chemical powder / carbon dioxide.
HAZCHEM: N/A
Recommended protective clothing: Breathing apparatus for fire only.

Section 6: Accidental Release Measures

Emergency procedures: Wear sufficient respiratory protection where necessary and protective clothing to minimize skin exposure. If possible contain the spill. Place inert absorbent such as vermiculite, sand or dirt onto material.

Environmental precautions Spilled product & washings must be prevented from entering any drains or waterways, or from contaminating the ground.

Procedure for a spill Keep all bystanders away. Wear appropriate protective gear. Re-position any leaking containers to minimise any further leakage. Dam & absorb spill with an absorbent material (sand or soil). Shovel the absorbed material into a drum or similar robust container. Dispose of in an approved landfill. Decontaminate the spill area with detergent & water & rinse with the smallest volume of water possible.

Section 7: Handling and Storage

Precautions for safe handling: Wash hands thoroughly after handling. Wear protective gloves when handling. In case of inadequate ventilation wear respiratory protection. Contaminated work clothing should not be allowed out of the workplace. Avoid contamination of any water supply with chemical or empty container.
Approved handlers: Not required

Conditions for safe storage: See below

Store site requirements: Keep out of reach of children. Store in original container, tightly closed, away from foodstuffs. Store upright in a cool place. Do not freeze. Protect from light. Store locked up.

Packing: No specific packaging requirement.

Section 8: Exposure Controls / Personal Protection

Workplace Exposure Guidelines: No working exposure standards have been established.

Exposure standards outside the workplace: No tolerable exposure limit (TEL) or environmental exposure limit (EEL) are set for this substance at this time.

Engineering controls: N/A

Personal protective Equipment (PPE): When handing bulk quantities, wear suitable gloves, protective clothing, to avoid prolonged breathing of dust or contact of dust with skin. Wash thoroughly with soap and water after handing.

Section 9: Physical and Chemical Properties

Appearance: White suspension of penicillin in a clear or slightly yellow solution.

Odour Faint, musty

Specific Gravity: 0.95 – 1.13 g/L

pH: 5.0 – 7.5

Solubility in Water: Slightly soluble in water

Flammability: Not highly flammable, but may burn

Combustibility: The oily suspension may be combustible

Explosive properties Not explosive

Oxidising properties Not oxidizing

Corrosiveness Not corrosive
Section 10: Stability and Reactivity

Stability of the substance: Stable under normal conditions of use.

Conditions to avoid: Temperatures exceeding 20°C or less than 2°C.

Material to avoid: Solvents which may degrade the plastic container. Strong oxidising agents (e.g. peroxides, permanganates, nitric acid etc).

Hazardous decomposition products: On heating to decomposition, emits toxic fumes.

Hazardous polymerization: N/A

Specific Data: N/A

Section 11: Toxicological Information

The information below applies to Penicillin

Acute toxicity (LD50)
- Rat, i.v: 97 mg/kg. Mouse, i.p: 146mg/kg.
- Mouse, s.c: 2300mg/kg.
- Mouse, i.v: 119mg/kg. Rabbit, i.v: 70mg/kg

Chronic toxicity
- NOEL (mouse, oral): < 1100 mg/kg.
- LOEL (mouse, oral): >2300 mg/kg.

Mutagenicity: Not mutagenic

Section 12: Ecological Information

Very ecotoxic in the aquatic environment
- Acute ecotoxicity L(E)C50 ≤ 1mg/L
- Regardless of any persistence or bioaccumulation or chronic ecotoxicity information
  [User Guide to the HSNO Thresholds and Classifications]

Slightly harmful in the soil environment
- Slightly ecotoxic in the soil environment because of its lethal effects on a range of micro-organisms. Does not persist in the environment owing to degradation & photolysis.

Section 13: Disposal Considerations

Disposal information:
- Dispose of by use.
- Triple or pressure rinse container including exterior and cap. Dispose of rinsate and any undiluted chemical according to local
Government requirements.
Dispose of empty container by wrapping with paper and placing in the garbage, in accordance with the Territorial Local Authority.
Avoid contamination of any water supply with chemical or empty container.
Toxic to fish. Do not contaminate dams, rivers, steams or other waterways with product or empty container.

Section 14: Transport Information

Transport information: Under the HSNO Control EM1, the transport of quantities of this product in excess of 1L must comply with Land Transport Rule 45001 & Maritime Rule 24A in terms of labelling & documentation. Transport of any quantity by air must comply with Civil Aviation Rule 92.

Section 15: Regulatory Information

Registration number: A007787
For conditions of registration see http://www.foodsafety.govt.nz

HSNO Classification: ERMA Approval Code: HSR002362
Toxic: T2, T4, T5, T7.
Identification: I1, I9, I16, I17, I18, I19, I21, I23, I28, I29
Packaging: P1, P3, P13, P15, PG3
Disposal: D4, D5, D6, D7, D8
Emergency management: EM1, EM6, EM8, EM11, EM13

For a full listing of controls see http://www.epa.govt.nz

Section 16: Other Information

None.
