

# Protecting your pets has never been tastier.

## TINY AND TASTY

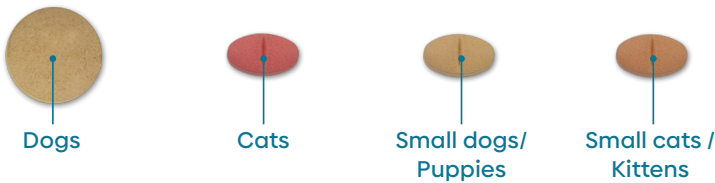

MILPRO® has been developed to make dosing easier for you and your pet, to increase compliance and treatment success.

The entire MILPRO® range is proven to be highly palatable in dogs and cats.<sup>1</sup>

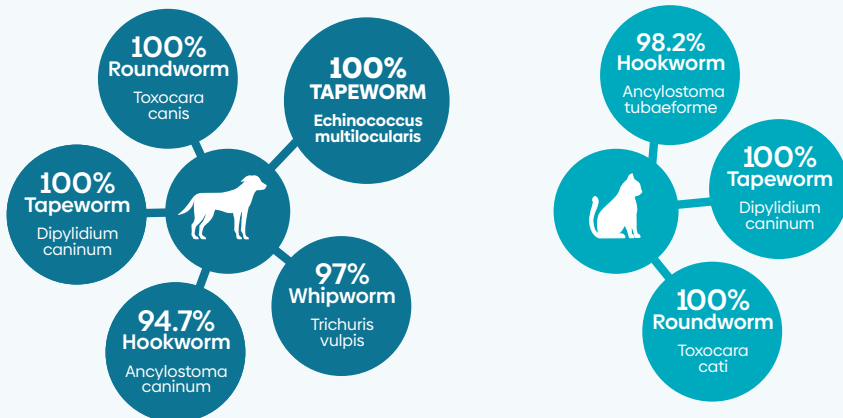

MILPRO® is available in a range of sizes – from small kittens to large dogs. Halved tablets can be stored wrapped in original foil packaging for up to 6 months.

### ACTUAL TABLET SIZE

## HIGHLY EFFECTIVE

MILPRO® treats and controls all major intestinal worms found in cats and dogs.<sup>1</sup>

## DEWORMING YOUR PETS

### ADULT CATS AND DOGS

Most adult cats and dogs in New Zealand should be treated with a broad-spectrum wormer such as MILPRO®, four times per year (every three months).

**DID YOU KNOW...  
EVEN INDOOR CATS  
REQUIRE DEWORMING?**

### PUPPIES

- Deworm with MILPRO® at 2, 4, 8 and 12 weeks of age, then every 3 months.
- Always deworm nursing bitches together with the puppies.
- Pregnant bitches should be treated at mating, then 10 days before whelping.

**Use only in puppies older than 2 weeks of age and/or weighing more than 0.5 kg.**

### KITTENS

- Deworm with MILPRO® at 6, 8 and 12 weeks of age, then every 3 months.
- Always deworm nursing queens together with the kittens.
- Pregnant queens should be treated at mating, then 10 days before kitting.

**Use only in kittens older than than 6 weeks of age and/or weighing more than 0.5 kg.**

**Every animal has a different lifestyle and may require tailored worming to suit their needs. For more info talk to your vet or visit [nz.virbac.com/milpro](http://nz.virbac.com/milpro)**
